

## Declaration of RoHS Conformity 2011/65/EU

**AISLER BV** and its subsidiaries and/or related companies (“we”), confirm that all circuit boards and stencils supplied meet the guidelines of the **European Directive 2011/65/EU** of the use of hazardous substances in electrical and electronic equipment (“RoHS”). We regularly audit our manufacturing partners to follow the RoHS.

For assembly services, components placed are project specific and hence cannot be guaranteed to comply with RoHS, if the project requires otherwise. However, we provide information about RoHS-conformity about each component, if desired. All assembly partners conform with RoHS as we regularly audit them.

The following companies are thus in compliance with **RoHS**:

- AISLER BV, Schoolstraat 2, 6295 AV Lemiers, The Netherlands
- AISLER Germany GmbH, Philipsstr. 8, 52068 Aachen, Germany
- AISLER Americas, Inc., 2093 Philadelphia Pike #2610, Claymont, DE 19703, United States of America

In need something more specific to your project, kindly contact us at [compliance@aisler.net](mailto:compliance@aisler.net).
